

## PH Upholstery - Oxfordshire's Antique and Modern Upholstery Specialist

### Upholstery - a New String to an Interior Designer's Bow

Jill Treloggen Interiors Ltd is a prominent Interior Design company, based in the Oxfordshire town of Witney. The company works with a range of clients, including home owners, property developers, and companies working at the top end of the rental market. Jill Treloggen and her team create stunning interiors for both domestic and commercial markets, including show homes and office suites.

#### A Strong Working Relationship

Some 18 months ago, Jill needed the help of an upholsterer and contacted Percy Hickman after seeing an advertisement. In fact, Jill contacted two local upholsterers, but the other company never returned her call. That phone call started a strong working relationship between PH Upholstery and Jill Treloggen Interiors.

Jill's upholstery needs are varied, and include the re-upholstery of client's existing furniture and bespoke upholstery. She comments,

*"Upholstery is a dying art and it's good for us to be able to offer it as a service."*

Many of Jill's clients want something out of the ordinary. They want an exclusive and unique look, and this can't be achieved by buying furniture 'off the shelf'.

#### Bespoke Upholstery

In the past 18 months PH Upholstery has created many bespoke headboards, foot stools, and chairs for Jill Treloggen. Jill described the process, saying,

*"We can't always get what we want from the shops, so we give Percy a sketch or a picture, and specify things like the sort of feet we want and the dimensions. We arrange for the fabric to be delivered to Percy's workshop, and work together closely to meet the deadlines."*

The finished item is delivered to Jill's Witney base or direct to the site, which ever is most convenient.

Jill also said she wouldn't hesitate in giving PH Upholstery a valuable antique to upholster, because Percy understands how they are made, and has the skills to carry out any repairs as well as the upholstery.

#### Looking to the Future

In today's market, reusing and recycling is becoming increasingly important. Many of Jill Treloggen's clients are now turning to re-upholstery instead of simply discarding their old furniture. She feels this aspect of her business will continue to grow, and appreciates being able to add upholstery as 'another string to her bow'.

*"Percy Hickman has been a great asset to the services we offer. It's good to work with a traditional crafts person and deliver some beautiful bespoke pieces to our clients."*
